DETAILED ACTION

This Office Action is in response to the amendment filed November 3, 2006 in which claims 1, 10, 23 and 36 were amended.

Double Patenting

1. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. A nonstatutory obviousness-type double patenting rejection is appropriate where the conflicting claims are not identical, but at least one examined application claim is not patentably distinct from the reference claim(s) because the examined application claim is either anticipated by, or would have been obvious over, the reference claim(s). See, e.g., *In re Berg*, 140 F.3d 1428, 46 USPQ2d 1226 (Fed. Cir. 1998); *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) or 1.321(d) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent either is shown to be commonly owned with this application, or claims an invention made as a result of activities undertaken within the scope of a joint research agreement.

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

2. Claims 1, 2, 4-9, 11, 12, 14-21, 23-29 and 31-35 are rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1-6, 8-19 and 21-31 of U.S. Patent No. 6,239,298. Although the conflicting claims are not identical, they are not patentably distinct from each other because the first moiety of the present invention encompasses the first moiety set forth in the patent. The unsaturated synthetic base oil of the present invention encompasses the limitation of an unsaturated triglyceride plant oil thermal polymer, as set forth in the patent.

It should be noted that claims 14-21 were inadvertently omitted in the statement of the rejection. However, it is clear from the Office action summary that these claims were included as rejected claims.

Applicant argues that the ODP rejection set forth by the examiner is incorrect. Applicant argues that the first moieties are distinguishable because the first moiety of the patent is significantly polyunsaturated whereas TMOSS made from the unsaturated synthetic base oil trimethylol propane trioleate is relatively unsaturated.

It should be noted that those claims directed to trimethylol propane trioleate were not rejected. The examiner maintains that the thermal polymers of the patent, which are synthetic, encompasses the unsaturated synthetic base oil of the first moiety. Thermal polymers of unsaturated triglyceride plant oil are not naturally occurring compounds.

3. Claims 10 and 36 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims. The prior art fails to teach or suggest the claimed anti-wear compounds

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
